

Anwar Imam

Undergraduate

I am a fourth year Computer Science student, I specialize in React.js and the MERN stack. I'm also enthusiastic about upcoming advances in the field of technology and actively improving my data structures and algorithms skills in Python and C. I'm well-rounded in web development, cloud computing, and problem-solving.

WORK EXPERIENCE

Software Developer Intern

NextGeeks

10/2022 - 11/2022

Ranchi

Achievements/Tasks

- Learned about complex applications of react.js along with HTML and CSS.
- Implemented my theoretical knowledge towards optimizing upwards of 10 websites.
- Got valuable feedback and learning experience under industry experts.

SKILLS

Python

HTML

CSS

Bootstrap

Git

SQL

ReactJS

Critical Thinking

Problem Solving

Django

PERSONAL PROJECTS

Solar Website

- Built a Responsive website to generate awareness about importance of solar power.
- Helped over 200 students to get briefing over value of solar and renewable energy sources.

Weather App

- Built a weather app using Vue 3, Tailwind CSS & the OpenWeather API.
- Implemented real-time weather updates.

Hospital Management System

- TechStack: Python, MySQL, Django, HTML/CSS/JS.
- This project highlights my skills in Django, full-stack development, and healthcare application design.

CERTIFICATES

Applications of Data Structures (03/2023 - 04/2023)

Spearheaded a team of three and secured 3rd rank in over 50 participating teams.

Board Member - Hitaya Foundation (10/2020 - Present)

It supports local vendors by purchasing diyas from them and selling to the community. Profits are donated to an orphanage.

Youth For Seva (01/2023 - 01/2023)

Volunteered in Annual kids carnival organised by youth for seva for underprivileged children to showcase their talents.
